STUDENTS FAVOR THE PEASANTS

Urge King Charles to Support Them in the Present Movement.

REFUSAL CAUSES TROUBLE

Pamphlets Are Being Distributed Inciting People to Help the Rioters.

BUCHAREST, ROUMANIA. March 21.—King Charles to-day refused to receive in audience a delegation of students from Jassy University, who desired to urge him to support the peasants in the present movement. The delegates, incensed at His Majesty's refusal, issued several pamphiets, inciting the population to assist the revolted peasantry. These are now being widely distributed in Bucharest. In the opinion of the Roumanian government the rising of the peasants in Moldavia is more of an anarchistic character than anti-Semitic.

In reply to requests for a statement on the subject to-day, Finance Minister Ignescu wrote the following note:

"The present regrettable movement is not only of anti-Semitic, but also of an agrarian and anarchistic character. The houses of Christians, both owners and tenants, have been destroyed. The government has takent all pressible measures to cope with

owners and tenants, have been destroyed. The government has taken all possible measures to cope with the movement, which must now be regarded more as an anarchistic campaign han anything else."

Later in the day a deputation of land owners, headed by Prince Ghika, was received in audience by King Charles, and assured that no efforts would be spared to end the peasant troubles. The King promised to devote his most carnest attention to restoring order in Moldavia. He held politics responsible for the whole trouble. The present administration did not answer to the needs of the times. His Majesty declared they must forthwith set to work and solve the forthwith set to work and solve the agrarian and Semitic questions.

The King's assurances have made a good impression on the people.

Up-to-Date Establishment.

The brilliant millinery opening of the season is now holding full sway at Crighton's. The tremendous sales of the past two days have already relieved the heavy-laden shelves of some of their prettlest treasures.

Great crowds have constantly been in attendance, and the reasonable prices asked for these smart evidences of the designers' art are really astounding, the consequence being quite irresistible, for was there ever anything dearer than an Easter bonnet? or the joy more infinite when some pretty one smiles to herself at a real bargain?

at a real bargain?

The revival of the picture hat is a pleasing feature of the gladsome spring-time, and through the generous indusence of black lace and plumes, nothing has surpassed that ever-charming com-

bination.

A tip to the spring shopper is twofeld and unrelenting, namely; streamers must be had at any cost, and the plumes shall be "weeping willow" in the effect.

London has deemed it wise to call back into use very deep coral, so long lain asleep, in jewelry and clothes; hence the wany hats of the queer tones of the many hats of the queer tones of pink, which, when cleverly manipulated will give an air to the fortunate posses-

dear.

The full importance of an up-to-date hat, worn at the correct time, has dawned with such brilliancy upon the feminine mind that no longer will one bonnet "do" for all occasions.

The lack hat has its requisites, namely, simplicity and style, while the evening or dress hat taky lend to the romantic and picturesque-phases of milady's capabilities. The soft flowered crowns are shedding their sweet subdety on the semi-dress costume, and the artistic drooping straws of legiorn are absolutely fascinating.

HARDESTY ARRESTED.

Charged With Aiding in Escape of Prisoners.

Richard Hardesty, a young white man, was arrested yesterday by Policemen Mattern and Farley, and urned over to the Henrico authorities, charged with being an accessory to the escape, on last Christmas Eve, of Clarence Morris and Robert Evans. These two were county prisoners, confined in the city fall. Morris was afterwards recaptured and given six months extra time for escap-

ing, and twelve months for the theft which caused his original arrest. Evans is still at large.

Hardesty, it is alleged, furnished the rope and a saw, by which the escape was effected. He has retained Mr. G. K. Pollock as his attorney.

The point has been mised as to wheth.

K. Pollock as his attorney.

The point has been ruised as to whether Hardesty should be considered a county or city prisoner. At the time of the alleged attempt county prisoners were being kept at the city jail, while the new county jail was in progress of erceiton. The offense was committed in the city, but was an attempt to aid county prisoners. The point at law will have to be settled by the courts. Meanwhile, Sheriff Solomon will hold his prisoner.

But just then, casting her roving eye to the base of the fence below, the place where fluttered my trusty polka-dot hoselery on the clothes-line, she espied a little patch of delicate, tender emerald.

It was my mint-bed, just preparing to open up the season!

Great was the delight of the Commander-in-Chlef when she first saw this evidence of spring, for she suspected not what was the hardy plant which thus ventured to brave belated snows and treacherous frosts.

"Oh, you plucky little dear," passionately exclaimed the heavily-armed dame, while, like a duck on a Junebug, she swooped down on an almost imporceptible sprig of green. "How I hope the sun will make you grow big and strong, and help you to spread until you carpet this whole yard."

Then she smelt the mint and snorted.

In a second, she was waving the

Last summer, when the perspiring dog star was frisking unifcensed through the heavens, we had a glorious flower-garden in this same back yard, but autumn and winter, combined with the cook, the children and the garbage barrel, had made the place more unsavory than a city dump.

The situation, too, was greatly ramified by the clothes-lines, which make locomotion perilous at night and perpetually present the most dangerous of traps for unsuspecting chins or unwary noses.
